Suction Dredge Guide for Reclamation Purposes

Step 1: Go on the internet and type: "Accomplishments | Public Lands For The People" download and print: "Osterbrink-decision.pdf" and "Godfrey district court decision.pdf".

Step 2: Download and print "CA FGC section 5653.8" off the internet.

Step 3: Go on the internet and type:

<https://www.publiclandsforthepeople.org/mining-documents/>

Download and print: "sample partnership agreement" found under "Legal Documents". Sign it (with at least 2 partners) and have it notarized.

Step 4: Download and print "33 U.S.C. 1362 subsection (12), and subsection (16)" off the internet.

Do not create permanent waterway diversions without F&G 1602 permit.

[Important Fact: Reclamation Suction Dredging does not produce an imported discharge and does not add a foreign substance into the waterway. It does represent a net withdrawal (not an addition) of material, precluding the activity from any discharge classification]

Keep these documents in your vehicle with an extra copy for the CA Fish & Wildlife Service or the CA Water Quality Control Board agent in case you are questioned.

Thank you for doing your part to keep our waterways clean!
